INFUSED WITH CHOCOLATE

Terracota infused with chocolate is born at the meeting point where tequila honors its origin and opens itself to new possibilities. The natural intensity of the agave merges with the depth of chocolate, revealing notes of toasted cocoa and a warmth that envelops the palate.

The result is a complex and provocative experience that challenges the senses without losing the essence of tequila. It is not an impulsive fusion: it is a conscious dialogue between sweetness and roast, between roots and curiosity.

TASTING NOTES

APPEARANCE

Straw yellow with delicate golden highlights and a light body, reflecting the smoothness and richness of its chocolate infusion.

AROMA

Chocolate and cocoa stand out, accompanied by subtle hints of vanilla and caramel that blend harmoniously.

TASTE

Delicate sweetness with slight acidic touches, combining into a smooth, velvety sensation.

Terracota does not aim to resemble what already exists. It seeks to spark questions, start conversations, and transform the way tequila is enjoyed.
